

note: need to label signal names from schematic
 note: need to change ID port to something other than \$F0-\$F7
 note: added inventer to A7 to make IO port range \$F0-\$F3 rather than \$F0-\$F3

note: changed the 6845 data bus pins from output to 3 state
 note: need RCA jack PCB footprint
 note: Is LPEN (6845 pin 31) grounded?

note: Sharp MZ-700 CPU clock is 3.5MHz
