

Updates baby M68k CPU board 1.0 to 1.1

Add the B\_DT/R bus signal as a board output

Added wires:

B\_DT/R                    U11.9 -- K1.B27 (ECB 96-pin connector)

W/R                    U11.11 -- U13.12

[the above update is optional]

(end)
